

DigiD Authorization

Before Driving School Green can apply for your final or TTT exam, you have to give us your permission. This is done via an authorization. The advantage of doing so, is that you will receive an email immediately stating that Driving School Green has reserved a spot for your final or TTT exam. Moreover, your address information will be available for Driving School Green in the CBR reservations system. Authorization can be done on the website **mijn.cbr.nl** with your **DigiD**, your personal online ID for governmental matters. Never disclose your DigiD password to someone else.

The authorization remains valid until you have passed your exam. However, if you want to withdraw authorization beforehand, please go to the '**mijn.cbr.nl**' website to view the conditions. It is also handy to know that Driving School Green is not in the position to reserve a final or TTT exam in your name. The possibility to switch the date for your final or TTT exam are limited, so please make sure you plan the date for your exam carefully with your instructor. You can do this by using the exam forms given out by your driving instructor.

So, a prompt authorization given to driving school Green will ensure that your exams can begin as soon as possible.
